

ARCHITECTURE STUDENT DESIGN CHALLENGE 2019

PRESENTED BY MARVIN WINDOWS OF CANADA

ASDC 2019

AFFORDABLE LIVING SPACES

MARVIN WINDOWS OF CANADA IS
PLEASED TO INVITE ARCHITECTURE
STUDENTS TO PARTICIPATE IN THE 2019
ARCHITECTURE STUDENT DESIGN
CHALLENGE!

This year's theme "Affordable Living Spaces" is centered around affordable housing. High housing costs and a shortage of housing supply in urban centers in Canada are certainly not a new phenomenon.

Today's housing challenges have persisted and grown due to extended periods of unprecedented economic and urban growth. Affordable housing is fundamental to the health and well-being of people and to the smooth functioning of economies. Yet, Canadian cities are struggling to meet the need for affordable living spaces with many residents left behind unable to find, compete for, and maintain affordable places to live.

THE CHALLENGE

Design low-income housing units that are sustainable and most importantly improve the quality of life of the intended residents and the surrounding community. Your project should reflect thoughtful and future-centric design with an emphasis on accessibility, usability, adaptability, diversity and interaction in the community.

- The design must include Marvin Windows & Doors family of products. To explore our products visit www.marvincanada.com and www.marvin.com.
- Any style of architecture is welcome - think outside the box and show us your unique perspective with regards to creating these spaces.
- The design must be mindful of birds.
- Size Restrictions: between 3000 and 7000 square feet.
- Compliance: You will need to meet a Building Code compliance of PG 30, and an overall window U-value of 1.60 or better (or an ER of 25 or greater).
