

Integrity Fit the Plans for This Architectural Firm.

When Dan Amicone, partner at Architecttura, Inc., was looking to design his new office building, he figured Integrity® by Marvin® into his window replacement plans. His firm had designed many commercial buildings, and he understood the importance of quality, durability and value.

PROJECT HIGHLIGHTS:

Name: Architecttura

Location: Windsor, Ontario

Project Type: Renovation

Building Type: Small Commercial

Product Series: Wood Ultrex

Product Types: Integrity Windows and Doors

Builder/Remodeler: Dan Amicone, Architecttura

THE INTEGRITY SOLUTION FOR YOUR COMMERCIAL PROJECT

Integrity windows and doors are made with Ultrex®, a pultruded fiberglass that's eight times stronger than vinyl. It's long-lasting, highly durable, doesn't leak or corrode, resists rot and resists expanding and contracting in temperature swings. Low-maintenance Integrity windows and doors meet the highest energy-efficiency standards while providing the design flexibility you need for your next commercial project.
